

Combustion and emissions optimization in marine and heavy duty engines: the ECCO-mate project

- 18.00-18.05 *Welcome*, L. Kaiktsis, National Technical University of Athens
- 18.05-18.35 *The ECCO-MATE project*, M. Founti, National Technical University of Athens
- 18.35-19.00 *Emission regulations for ships and dual-fuel marine engines*, P. Kontoulis, National Technical University of Athens
- 19.00-19.10 *Coffee break*
- 19.10-19.30 *Smart sustainable fuels for the marine industry: Perspectives and challenges*, G. Skevis, Centre for Research and Technology Hellas and National Technical University of Athens
- 19.30-19.50 *Practical experience gained on the application of MEWIS DUCT,MD®*, P. Leontis, Intership Maritime Inc Managing Director.
- 19.50-20.10 *Discussion*
- 20.10-21.00 *Buffet*
